Summary

In the last 47 weeks you are spending \$27.04 per week on average for 10.6 trips per week. You could save \$2.55 by moving the remaining 2.5 of your peak-time trips to off-peak times. 69% of your trips (7.3 trips) are half-price after the 8-trip Weekly Travel Reward. In total, you are already saving \$12.9 per week by travelling at off-peak times and taking advantage of discounts offered by Opal.
